

PWM and Peripheral

Tuesday, January 31, 2023 5:16 PM

Scope Traces Part 1

2) To set up pin 2.6 & 2.7 as pwm we need to look at gpio pins
originally pin 7 was set to timer_A1 which doesn't allow pin 2.6 & 2.7
∴ change to timer_A0

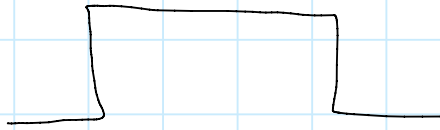

4) Scope shows a pulse wave that has increasing duty cycle

slowly increase to

increases to tick = 1000

then resets
